SAFETY AND GENERAL INFORMATION

Save these instructions. For your safety *read, understand, and follow* the information provided with and on this pair of vehicle stands before using. The owner and operator of this equipment shall have an understanding of the jack stands and safe operating procedures before attempting to use. The owner and operator shall be aware that use of this product may require special skills and knowledge. Instructions and safety information shall be conveyed in the operator's native language before use of these jack stands is authorized. If any doubt exists as to the safety or proper use of these vehicle stands, remove from service immediately.

Inspect before each use. Do not use if broken, bent, cracked, or damaged parts (including labels) are noted. Any stand that appears damaged in any way, operates abnormally or is missing parts, shall be removed from service immediately. If you suspect that the jack stand was subjected to a shock load (a load dropped suddenly, unexpectedly upon it), immediately discontinue use until the stand has been checked by a factory authorized service center (contact distributor or manufacturer for list of Authorized Service Centers). It is recommended that an annual inspection be done by qualified personnel. Labels and owner's manuals are available from manufacturer.

PRODUCT DESCRIPTION

Hein-Werner Heavy Duty Vehicle Stands are designed to support rated capacity, partial vehicle loads consisting of one end of a vehicle.

*Use vehicle stands as a matched pair to support **one end** of a vehicle only! Stands are not to be used to simultaneously support both ends or one side of a vehicle. Rated capacity is **per pair**!*

BEFORE USE

(refer to Figure 1 for location of components)

1. Verify that the product and the application are compatible. If in doubt, contact Hein-Werner customer Service.
2. Inspect stands before each use. Do not use if there are bent, broken or cracked components (including labels).
3. Ensure that all parts move freely.
4. Before use, read the owner's manual completely and familiarize yourself thoroughly with the product and the hazards associated with its improper use.
5. Always refer to the vehicle owners or service manual for location of proper lift and support points.

Lift and support points may differ from vehicle to vehicle. The owner and operator of these stands shall be aware that special training and knowledge may be required in the proper placement of jacks and stands. Lift and support only those areas as recommended by the vehicle manufacturer. Consult the manufacturer's service manual for the location of proper lift and support points.

No means are provided to prevent inadvertent separation of the column from the base. ***Handle*** *assembled stands* ***with care!***

OPERATION

NEVER *use jack stands to support* ***both sides or one end*** *of a vehicle! Use only* ***one (1) pair per*** *vehicle. Rated capacity is* ***per pair*** *only! Do not exceed rated capacity.* ***Use only*** *on areas of the vehicle as specified by the vehicle manufacturer.* ***Use ONLY*** *on vehicles whose support points are* ***compatible*** *with the saddle of the jack stand. Incompatibility may result in structural damage to the vehicle and/or jack stand. Structural damage to either may result in sudden and unexpected loss of load height!*

Only attachments and/or adapters supplied by the manufacturer shall be used.

1. Adjust saddle height by pulling up the extension tube, then insert the support pin through the appropriate hole on extension tube.
2. Ensure that support pin is secure and nested across two corresponding semi-circular cutout on the collar before loading. Insert support pin into the extension tube far enough to create equal distance of pin extending from the extension tube on both sides.
3. *Carefully* position stands so that load is centered on stand's saddle.
4. *Slowly* lower the vehicle onto the stands.
5. Check to ensure vehicle is secure before working on, around or under.

To lower load

Be sure that all tools and personnel are clear before lowering load.

1. Raise vehicle clear of stands with suitable jack.
2. *Carefully* release support pin and allow extension tube to glide down to lowest position.
3. *Carefully* remove stands and place stands away from the work area.
4. *Carefully* lower vehicle with jack.

MAINTENANCE

Periodically inspect each stand. Ensure all parts move freely. Do not apply oil or grease to any portion of this product. If rust appears, sand affected area and cover with suitable utility paint. Please note that there is no replacement part applicable to this device.

Storage

Store jack stands in upright position and in a clean, dry area.
